

Things that grow

Tuesday, 29 May 2012 14:58

<div>At dinner (eating hamburgers) we are discussing things to plant in the garden. Aline comments that she want blueberries and raspberries in the garden as they are the most expensive fruit and they are Hazel and Sam's favourites.◆ Hazel starts listing off other things she likes to eat and that she thinks we should grow . . . tomatoes . . . strawberries . . . beans . . .</div> <p>Then Sam pipes up: Mommy you should plant burgers.◆ I really like burgers.</p>
